

2026 CLEAN TRANSPORTATION EXPO
Georgia International Convention Center
June 9 - June 11, 2026

WHY SPONSOR?

The Clean Transportation Expo will be an opportunity to build public-private partnerships and talk about successes and challenges with all forms of clean transportation, both within Georgia and the region. Panels will cover the latest with Compressed and Renewable Natural Gas, Bio Fuels, development, Hydrogen, Electrification, Propane, Sustainable Aviation Fuel, and the technologies that support these fuels.

Sponsoring this summit offers you the unique opportunity to:

- Engage directly with top business leaders and policymakers to shape clean transportation adoption strategies across Georgia.
- Network with industry experts and decision-makers, opening doors for partnerships and opportunities to implement clean transportation within your business.
- Share actionable insights and strategies on integrating all clean fuels, developing energy security solutions while showcasing your company's expertise and leadership in clean transportation.
- Highlight your company's successes and upcoming clean transportation initiatives, positioning your brand as a pioneer in clean transportation innovation.
- Demonstrate alternative fuel vehicles' transformative potential as a clean, reliable method of transportation and solidify your role in Georgia's clean energy transition.

Join us as a sponsor to elevate your brand and contribute to shaping the clean transportation economy in Georgia and beyond.

EVENT OVERVIEW

June 9 - June 11, 2026

The Georgia International Convention Center

2000 Convention Center Concourse

College Park, GA 30337

Tuesday, June 9th

Expo Hall Move in

5:00 PM: Reception

Wednesday, June 10th

7:30 AM: Registration and Continental Breakfast

8:30 AM: Welcome and Opening Remarks

8:40 AM: VIP Speakers Welcome

8:55 AM: Keynote Speaker

9:20 AM: Panel: Making the Business Case with Alternative Fuels Today

10:30 AM: Break/Networking

10:45 AM: Panel: Community Engagement for Clean Energy and Transportation Initiatives

12:00 PM: Lunch & Learn: Biofuels & Renewables- How Do We Move the Industry Forward in GA

1:00 PM: Networking and Booth Visits, Converting your Bus Fleet - School Buses and Transit

2:00 PM: Resiliency and Energy Security with Alternative Fuels

3:00 PM: Break / Networking, Showcase: Clean Cities Georgia's Initiatives

3:20 PM: How to Work with Current Funding and Incentive Opportunities

4:15-4:30 PM: Showroom Floor Open

Thursday, June 11th

7:30 AM: Registration and Continental Breakfast

8:40 AM: VIP Remarks

8:55 AM: Keynote Speaker

9:20 AM: Technologies of the Future

10:30 AM: Break / Networking

10:45 AM: Air, Off-road, and First Responder Vehicles (DORMA)

11:45 AM - 12:00 PM: Sponsor Speakers

WHO SHOULD ATTEND?

This summit is essential for any businesses or organizations eager to explore clean transportation's expanding role and the strides being made in alternative fuel vehicles. Attendees will gain direct access to leaders and innovators who are actively advancing clean transportation adoption across the Southeast. Expect impactful networking, valuable insights, and opportunities to collaborate with those shaping the future of clean transportation.

Suggested Sectors

- Battery Storage
- Biofuels Applications
- Dealerships and OEMs
- Electric Utility Providers
- Electrons to EVs
- Energy Management & Telematics
- First Responders
- Fleet Operators & Managers
- Fleet Vehicle Manufacturers
- Home Service Companies
- Hydrogen Technologies
- Idle Reduction Applications
- Nonprofits & Community Leaders
- Power-to-Gas Technologies
- Regional Planning Organizations
- Renewable Energy Developers
- Renewable Natural Gas
- School & Transit Bus Directors
- Shipping Logistics
- Sustainable Aviation
- Sustainability Directors
- Technicians & Mechanics
- Transportation Planners
- Waste Collection & Management
- Waste-to-Energy & Conversion Solutions

Sponsor Opportunities

Benefits	Presenting Sponsor (\$15,000)	Lunch/ Reception Sponsor (\$5,000)	Breakfast/ Panel Sponsor (\$2,500)	Vendor and Vehicle Sponsor (\$2,000 for 10x10)*	Break Sponsors (\$2,000)
Complimentary Tickets	8	6	4	2	1

ABOUT THE ORGANIZER

Clean Cities Georgia (CC-GA) is a nonprofit coalition dedicated to advancing clean transportation adoption through stakeholder engagement, fleet conversions, grant matching, and outreach. Established in 1993 as the first Coalition founded under the U.S. Department of Energy's Clean Cities and Communities National Partnership, it serves as the central coordinator for alternative fuel vehicle (AFV) activities across Georgia.

The coalition collaborates with vehicle fleets, fuel providers, community leaders, and other stakeholders to identify and implement strategies that reduce petroleum consumption by matching the right alternative fuel to the right vehicle application. Through its initiatives, Clean Cities Georgia aims to increase domestic energy security, improve air quality, and support the transition to a more sustainable transportation sector within the state.

Clean Cities Georgia is fuel agnostic. CC-GA recognizes that there are many fuel applications. Pairing the right fuel to the right application is critical to ensure economic and environmental progress. As a connector in the clean transportation space, CC-GA has a wide variety of contacts that can assist with practically any transportation project in Georgia.
